Cephalanthus occidentalis

California buttonbush (aka Buttonwillow)

Fast growing winter deciduous multi-branched shrub or tree.
Grows from 3-25’ tall and up to 12’ wide.
Takes full to part sun.
Creamy white flower clusters in the spring and summer.
Requires regular water.
Cold hardy to 15˚ F.
Tolerates alkaline soil and sand but does best in clay.
Tolerates no drainage and seasonal flooding.
Good for stream bank erosion control.

Full sun to part shade
Requires regular water
Attracts birds
Attracts butterflies
