Epilobium septentrionale
‘Select Mattole’

Mattole river fuchsia

Deciduous to semi-evergreen. Mounding to 3-6 in tall and 2-3 ft across. Tolerates poor soil and seasonal flooding. Prune by mowing once a year in the late fall. Dense, fuzzy silvery green foliage. Red-orange flowers in summer. Requires regular water. Hummingbirds are main pollinators.

Best with afternoon shade
Water regularly
Attracts hummingbirds
