Heuchera micrantha

Coral bells, alumroot

**General:**
Compact evergreen perennial, 1-2 ft. spikes of very dainty white flowers, dozens of spikes per plant. Foliage in clumps 1-2 feet across with 4 inch reddish-green leaves. Likes high shade, regular water and good drainage.

**Uses:**
Use in rock gardens, as a ground cover, mass borders, or as an edging in flower beds.

part sun to full shade, avoid hot afternoon sun.

regular water
