**Prunus virginiana var. demissa**

**Western chokecherry**

Small tree to large shrub to 15’ H x 5’ W. Will do better with some afternoon shade in hot months. Flowers in Spring are cream colored. Fruit is edible and good for jam. Fall color is pale yellow to bright red. Attracts birds and butterflies. Good for erosion control. Can become drought and heat tolerant. Great addition for a bird and butterfly garden.

- Afternoon shade to full sun
- Occasional water to drought tolerant
- Attracts butterflies
- Attracts birds
