Sisyrinchium bellum

Blue-eyed grass

General:
Perennial native to California coast. Grows 8-16” in height, clumping as it spreads. Leaves are sword-like. The flowers are purplish-blue, 1/2 inch across and blooming in spring. There are yellow and white species. They have a wildflower-like charms. Not a true grass but a member of the Iris family. Well suited for naturalizing around oak trees.

- full sun to part shade
- very drought tolerant but will tolerate wet conditions
